

CHRISTIAN CHURCH COMMISSION

You are warmly invited to join us as we dream our way into 2017!

At 6:30pm on February 23, we will gather at New Hope Christian Church; we'll have a meal, thank God for all that was done in 2016, and discuss what 2017 has in store for new church growth!

This will be a pivotal year in the Commission's history, and we'd love for your faith, creativity, and passion to be a part of it!

BE PART OF THE SOLUTION!

CCC

CHRISTIAN CHURCH COMMISSION

Supporting new church
development for over 85 years.

PEOPLE NEED JESUS

New churches reach new people. We need revitalization in existing churches to be sure, but new churches reach people that existing churches simply do not. If you agree that people need Jesus, part of your church mission strategy should be planting or supporting a new church.

PLANTING CHURCHES CAN HELP EXISTING CHURCHES

Being a part of a new church plant can benefit a plateaued church. The creativity, energy and freedom of a new church can be contagious. God can also use it to inspire hope. When an existing church plants or supports a new church, they are a part of that new spirit, and that new spirit can spread.

PLANTING NEW CHURCHES IS REQUIRED TO REACH NORTH AMERICA WITH THE GOOD NEWS OF JESUS CHRIST.

Established churches should plant or support new church plants because we need ALL KINDS OF CHURCHES to reach ALL KINDS OF PEOPLE!

CHRISTIAN CHURCH COMMISSION'S 2016 PROJECTS:

REFUGE FELLOWSHIP CHURCH

A community of hope with the purpose of recovering the displaced, and unidentified members of the body of Christ.

IGLESIA CRISTIANA DEL CAPITOL HILL

La mision de la Iglesia Cristiana es ser un testigo de Cristo en servicio, compasion, y amor en las comunidades de la Ciudad de Oklahoma.

SIMPLICITY CHRISTIAN CHURCH

Doing whatever it takes to bring people to Christ, grow together in Christ, and go in the love of Christ.

Maybe your church is thriving, but statistically speaking, probably not; depending on the denomination, roughly 70% of churches have either plateaued or are declining. Existing churches that either plant or help support new church plants can help reverse that trend!
