*Rev. Dr. Dale McConnell*

Our “*Faith Under Fire*” seminar will be a deep dive into church funding matters. Much of what we do in the financial policies and practices of the church is simply what we have always done or what we inherited as leaders and we therefore repeat the same approaches.

Session 1, *Worst Practices in Stewardship*, examines the “way that we have always done it” to check if our assumptions and standard operating procedures are most effective at developing our mission and ministry. Or, are the practices indeed inhibiting our effectiveness.

Our second session, *Next Level Generosity*, will enable your church to produce a comprehensive generosity development plan which aligns people, resources, and opportunities to achieve maximum ministry impact.

Session 3, *Estate Planning/Planned Giving*, explores how and why to create a legacy. What it means for the church and what it means for you and your children and your children’s children.

Our final session, a discussion of *Effective Preaching for Inspiring Generosity and Discipleship*, will propose a plan on how to address the complexity of your church’s funding. (Hint: it is probably not what you think and you will find it not only a more enriching way of preaching on stewardship/generosity, but also more enjoyable.)
