

GOD'S RAINBOW IN THE CLOUDS CRAFT

Supplies:

- construction or regular paper in the colors of the rainbow
- white construction paper
- wiggle eyes stickers
- scissors
- glue stick
- black marker

You will need one long strip of paper in every color of the rainbow. Have the kids cut the strips (if they are old enough to handle scissors) or cut the strips before. Cut two cloud shapes from the white construction paper.

Glue the colorful strips of paper on one side of the cloud. Glue the other cloud over the strips to cover where the strips were glued. Cut out the scripture at the bottom of the instructions and glue on the back. Read the scripture as you glue it on.

Flip the rainbow cloud over. Stick on two wiggle eye stickers (stickers are super fun!) or draw the eyes. Also draw mouth for a super cute looking face.
